Caverion signs a Managed Services contract with Insurance Company HUK Coburg in Germany

Caverion has signed a Managed Services contract with the insurance company HUK Coburg in Germany. Caverion will take care of the Managed Operations and Technical Maintenance, including the availability of nearly all building systems at HUK Coburg's logistics and data centre in Coburg. The value of the 5-year contract is not disclosed.

"As one of the leading companies in the field of building systems, our employees have long-term experience in planning, execution and maintenance of highly sensitive buildings, such as data centres. Our holistic approach over the entire lifecycle ensures our customers maximum availability, energy efficiency as well as cost efficiency for the long term," says **Werner Kühn**, Executive Vice President and CEO, Caverion's Division Germany.

To guarantee the continuous availability of the systems, Caverion has implemented a 24-hour on-call service and alarm centre. Cooling and fire protection are crucial for the functionality of the data centre. Caverion's experts have overall responsibility for the cooling technology as well as the sprinklers and gaseous extinguishing system.

The contract covers the disciplines of Heating and Sanitation, Ventilation and Air Conditioning, Cooling, Information and Communication Services, Security and Safety and Automation. HUK Coburg belongs to Caverion's Real Estate Users client segment.
